

NoetixViews® Administration

The NoetixViews Administration course is an on-site class designed for the people who install, regenerate and maintain NoetixViews for Oracle E-Business Suite. Using a subset of your organization's current environment, you'll gain the knowledge and the skills necessary to keep your NoetixViews installation current with your Oracle configuration. Whether you need to regenerate the views due to patches affecting database tables and privileges, customization of a view or a NoetixViews upgrade, periodic maintenance is necessary.

If you use Oracle Discoverer as your main reporting tool, take the optional 1/2 day of training, *NoetixViews Administration for Oracle Discoverer*, and you'll learn how to create and administer the Oracle Discoverer EUL with NoetixViews.

Who Should Attend

NoetixViews administrators, system administrators and database administrators with one year or less experience administering NoetixViews for Oracle E-Business Suite.

What You Will Learn

You will learn detailed tips and tricks essential to administering NoetixViews for Oracle E-Business Suite. If you take the special add-on 1/2 day of training, you will learn to use Noetix Generator with Oracle Discoverer.

Key Benefits:

- ▶ Best practices for NoetixViews maintenance and regeneration
- ▶ Solutions to common installation or setup errors
- ▶ Learn how to implement NoetixViews security
- ▶ In-depth look at important files and tables

Course Overview

This course provides students with the knowledge and skills required to install and administer NoetixViews for Oracle E-Business Suite.

- ▶ Implementation checklist
- ▶ Installation of NoetixViews
- ▶ Best practices for NoetixViews maintenance and regeneration
- ▶ Setting up query users
- ▶ Using the Noetix Administrator tool
- ▶ Overview of security setup and implementation
- ▶ Control of prefixes and their use
- ▶ Working with online help
- ▶ Accessing SQL behind the views
- ▶ Useful Noetix administration reports
- ▶ Integration with query and reporting tools

Prerequisites

- ▶ Understanding of NoetixViews for Oracle E-Business Suite
- ▶ Oracle SQL*Plus experience - two years
- ▶ Working knowledge of Oracle Discoverer Administrator (only applicable if taking the optional 1/2 day of training)
- ▶ Working knowledge of Oracle E-Business Suite
- ▶ Database administration experience (Oracle software installation, how to create a database schema, expand tablespaces, grant system and object privileges, enroll new users, etc.)

Course Setup Requirements

Get the most out of your training by using your environment as the basis for the course. Your instructor will use a subset of your

environment to generate a set of NoetixViews representing each module purchased by your organization. To take advantage of this feature, the course setup requirements must be met prior to the instructor's arrival. If the following requirements are not met, your instructor will provide a default database run from the instructor's laptop to use during this course.

- ▶ Select a representative subset of Set of Books, Operating Unit, and Inventory Org and, if applicable, Business Group from your development environment for each NoetixViews module to be used as the basis for this course
- ▶ DBA availability to create a NoetixViews Training User
- ▶ Access to Oracle Apps user password
- ▶ Your NoetixViews software CD (most current version)

Oracle Database Server

- ▶ Oracle database versions 7.3 through 10.1.04, with compatible Oracle Client
- ▶ Oracle Applications 10.7, 11.0.3, or 11.5.5 through 11.5.10, HRMS Family Pack K
- ▶ ASCII and UTF8 character sets (excluding Non-Western, European multibyte character sets)

NoetixViews Administrator (client PC)

- ▶ Microsoft Windows 2000, Windows XP or Windows Server 2003
- ▶ RAM: Minimum 128 MB
- ▶ Free Disk Space: 30 MB for software; 200 MB to 500 MB for each NoetixViews instance (dependent on modules purchased and number of organizations)
- ▶ Oracle Client 7.3 to 10.1.0.4 (compatible with database) to include SQL*Net, SQL*Loader, and SQL*Plus

Additional setup requirements if taking the optional 1/2 day training—*NoetixViews Administration for Oracle Discoverer*:

- ▶ Your Noetix Generator for Oracle Discoverer software CD (most current version)
- ▶ Oracle Discoverer software (both Admin and End-user editions) is installed on the client PC or the instructor is given the necessary installation CDs

NoetixViews Administration for Oracle Discoverer

This course is a special offering in conjunction with the NoetixViews Administration course and cannot be taken as a stand-alone class.

Who Should Attend

NoetixViews administrators, system administrators and database administrators who use Oracle Discoverer as their main reporting tool.

Course Overview

- ▶ Administering the Discoverer End User Layer in conjunction with NoetixViews for Oracle E-Business Suite
- ▶ Using Noetix Generator for Oracle Discoverer
- ▶ Setting up end user access
- ▶ Troubleshooting the generator or user access
- ▶ Running with Discoverer in apps-mode
- ▶ Customizing the Noetix Generated Business Areas
